

Faculty discusses SimCom evaluation

"This is one of those faculty meetings that I have nightmares about," Catherine Ingold, chair of the faculty, said as faculty members were tied up in a discussion of voting procedures during this month's faculty meeting.

For the second year in a row, Committee B on Faculty Welfare was asking for direction on ways in which to proceed in the consideration and review of the evaluation system for the simultaneous method of communication. That evaluation is required of all faculty members and plays a role in the granting of tenure and promotion.

Two motions from the committee and an alternative favoring both of the motions were on the floor. The first motion supported the current evaluation process used by the Simultaneous Communication Evaluation Panel, which is chaired by Paula Ottinger, chair of the Department of Interpreter/Transliterator Instruction. The second motion sought to create a task force to solicit proposals for alternatives to the current evaluation process. A third vote for both indicated conditional acceptance of the current process while at the same time a desire for assessing alternative policies.

In a series of votes, all three failed to get a majority. The action would bring a halt to the committee's work in the area of communication evaluations, stated Bette Martin, chair of Committee B and a member of the English Department.

The discussion of the motions included comments and clarification by the Advisory Board on the Evaluation of the Simultaneous Method established in the faculty bylaws. Bob Johnson of the Linguistics Department, former chair of the Advisory Board, argued that a task force was unnecessary since the board had already published a report of recommendations and alternatives on

the SimCom evaluation process.

In other business, the faculty discussed the creation of a quality assessment committee which would be chaired by Ingold. Concerns were raised that that committee—composed of selected members working on a mandate prescribed by President Jerry C. Lee—would either be confused with the faculty-elected Committee S or that its recommendations would be misconstrued as having the endorsement of the faculty's self-study committee, which has the prime responsibility of self-study for the reaccreditation process.

Ingold said she was aware of the potential for confusion and misunderstanding, and said she felt it

Gallaudet conducts five-day seminar in Panama City

Two representatives of Gallaudet College travelled to Panama last month to conduct a five-day seminar on total communication.

Silvia Golocovsky, Latin America specialist for the International Center on Deafness, and Gilbert Delgado, dean of the Graduate School, conducted the Sept. 9-14 seminar at the children's hospital in Panama City.

The Panamanian Institute of Special Habilitation (Instituto Panamenio de Habilitacion Especial), through the International Center on Deafness, invited Gallaudet College to present the week-long series of lectures and demonstrations. The seminar was co-sponsored by the Institute, the Organization of American States, the Inter-American Children's Institute in Uruguay and Gallaudet College.

The seminar focused on total communication as an alternative in the education of deaf students. At present, deaf students in Panama attend oral

The School of Education and Human Services (SEHS) sponsored a professional association expo Oct. 12 at Ely Center. Professional associations pertinent to the fields represented in SEHS had representatives on hand and exhibits on display during the day.

schools.

During the seminar, Golocovsky and Delgado talked about the definition and utilization of total communication in schools, the deaf adult and trends and research in total communication.

Between 80 and 100 teachers from schools around the country, parents, doctors and deaf persons attended the sessions each day. The conference was the first meeting related to deafness in Panama in which deaf persons were included as participants.

Evening meetings were held with parents and later with members of the Association of the Deaf in Panama. The Association of the Deaf planned a reception which included the introduction of its officers, a greeting from the President, Eira Della Tonga, and the presentation of gifts to the Gallaudet and Costa Rican representatives.

The seminar was the first phase of a three-part program which will utilize the services of PROGRESO, Gallaudet's

project with the University of Costa Rica and the Mimo Bravo Association in San Jose. "It was an excellent example of a major change in philosophy occurring in Panama and a utilization of resources in a neighboring Central American country," Delgado stated. "This is in keeping with Gallaudet's efforts to help developing countries help themselves."

Panama sent teachers working with deaf students to Costa Rica for several weeks this month to observe the use of total communication in the classroom. In addition, teachers from Ecuador, Mexico, the Dominican Republic and Honduras sent teachers to Costa Rica.

In January, two Costa Rican teachers will travel to Panama to help train teachers there in the use of total communication. Delgado said Panama plans to begin implementation of total communication in the classroom on a trial basis next fall.

R. Orin Cornett, right, talks with Philip Goldberg, a professor of English, during a retirement party for Cornett. Cornett, a research professor and director of the Office of Cued Speech Programs since 1975, retired Oct. 1.

Cornett working on autocuer project

by Patricia Cinelli

Orin Cornett, the creator and developer of cued speech, retired this month as director of Gallaudet's Office of Cued Speech Programs but has remained on campus working on a special research project involving the autocuer.

Cornett said he expects to know next month when field testing of the autocuer will begin. The National Advisory Committee on the Autocuer is scheduled to meet in November to discuss the device's development. The autocuer was developed at Gallaudet in 1969 by Cornett. It is a speech-analyzing lipreading aid based on the principles of cued speech. Basically, it

is designed to provide the deaf wearer the equivalent of the cues of manually cued speech, operating automatically from the sound of the speaker's voice.

Cornett came to Gallaudet in 1965 to become vice president for long-range planning. Although he was director of higher education at the Department of Education he said he "couldn't resist coming here."

When he was at the Department of Education he was asked to conduct a study of Gallaudet. "So I started reading about deafness and came to Gallaudet frequently to use the library. I found that deaf people have no easy, reasonable way to learn spoken language," he said.

Among Ourselves

Yerker Andersson, a professor of Sociology, represented the World Federation of the Deaf in Japan May 31 through June 14. While in Japan, he gave lectures on television in five cities and met with mayors and governors of those cities. He also attended national meetings of the Japanese Federation of the Deaf.

He also presented two papers at the UNESCO Consultation Meeting on Alternatives to Education of the Deaf. The papers, presented at the June 17-22 meeting, were entitled "A Deaf Child Becomes An Adult" and "Support Services in Education of the Deaf." Experts from 14 countries attended the meeting. Andersson represented both Gallaudet and the World Federation of the Deaf.

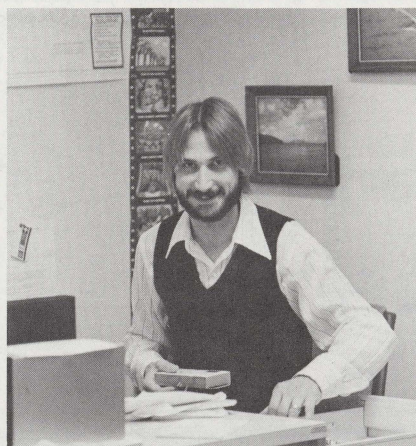

Two Gallaudet employees successfully completed the six-part exam required to become a Certified Professional Secretary. Pricilla Brown, a secretary in the Contracts and Purchasing Department, and Anna Fowler, a secretary in the English Department, join Irene Tarburton, office services supervisor in the Office of the President; Virginia Torabi, administrative secretary in the Dean's Office in the School of Communication; and P.J. Sanders, personnel assistant in the Personnel Office; in receiving the certification.

Glenda Ennis, planning specialist for Pre-College Outreach, coordinated the third annual Residence Program Conference, South Central Region, at the Louisiana School for the Deaf. Also representing Gallaudet at the Aug.

12-15 workshop as presenters were: Wilton McMillan, MSSD resident adviser, who spoke on activity planning; Nancy Popovich, coordinator of Residence Education at the College, who addressed adolescent/child development; and Lita Aldridge, planning specialist for Pre-College Outreach, who discussed parent education.

Donald Moores of the Gallaudet Research Institute Center for Studies in Education and Human Development was a planner and participant in the Samuel A. Kirk Colloquium held at the University of Illinois Sept. 16-18. The colloquium was held to commemorate Dr. Kirk's 80th birthday. Dr. Kirk established the first research center in education of the handicapped in the nation and the first doctoral training research program. He is the author of several books and developed the Illinois Test of Psycholinguistic Abilities. Dr. Moores presented a paper, "The Two Sigma Problem and its Implications for Research in Special Education." Approximately 80 former students and colleagues attended the colloquium, which was sponsored by the University of Illinois. The papers will be published by the Council for Exceptional Children as a book, "The Future of Special Education."

Barbara Kannapell, linguistics specialist with the Instructional Development and Evaluation Center (IDEC), gave a lecture on the bilingual/bicultural education of deaf children in May. She gave the lecture to teachers of the deaf and graduate students at Lewis and Clark College in Portland, OR, May 19 and 20.

Verden Ness is a production specialist with Gallaudet College Television.

Three departments split sign language offerings, services

Question: What departments do you call if you want a) to enroll in a sign language class b) to train to become a sign language interpreter or c) to enlist the services of an interpreter?

Answer: A) The Department of Sign Communication b) the Department of Interpreter/Transliterator Instruction and c) Gallaudet Interpreting Services.

While the departments have separate functions on campus, there is some confusion as to what responsibilities fall under each.

The Department of Sign Communication is an academic department which offers sign language training for faculty and staff members, new non-signing undergraduate students, graduate students and members of the community.

The Department of Interpreter/Transliterator Instruction, a responsibility of the Sign Communication Department until the spring of 1983, is now a separate academic department. The department is responsible for training interpreters and transliterators. Students can enroll in the program for the associate of arts degree or take a non-degree sequence during the evenings or summer months.

Gallaudet Interpreting Services (GIS) is not an academic department but a service unit of the School of Communication which provides interpreting services when requested for Gallaudet-related functions.

Marie Taccogna serves as the coordinator of GIS. Ron Coffey, Earl Elkins, Bernadette Coughlin and Bill Isham are the staff interpreters.

Paula Ottinger is the chair of the Department of Interpreter/Transliterator Instruction. Mary Anne Royster is an instructor and practicum supervisor and Carol Deninger an instructor in the department.

Lottie Riekehof is the chair of the Department of Sign Communication. Lynn Jacobowitz is responsible for Sign Language Instruction for Gallaudet Employees (SLIGE), Ron Brasel is responsible for the Graduate School Sign Communication Program and Sandra Frankel and Mike Kemp are responsible for the non-degree credit program which includes community sign language classes. Pat Richey is responsible for the New Student Signers Program. She shares responsibility for the Faculty Training Program with Will Madsen. Babs Riggs is responsible for the Pre-College Faculty Sign Language Training Program and Parent Sign Language Training Program.

NW Campus shuttle

Stop **Departure**
Monday through Friday

Main Campus 6:35 a.m.
Silver Spring metro 7:10 a.m.

• The Main Campus stops are at the College Hall entrance and the HMB parking lot near the walkway overpath. After 5:35 p.m. and on weekends, the bus will only stop at HMB.

• The Silver Spring metro stop is at the Kiss and Ride parking lot.

• The NW Campus stop is at the Main Building.

Sponsored R&D

Grant/contract deadlines

Provided below are application deadlines of selected federal programs that offer potential grant or contract opportunities for Kendall Green faculty, staff and graduate students. More details on these and other programs of interest can be obtained from the Office of Sponsored Research at x5030 (voice or TDD).

Deadline	Program
11/8/84	NSF: NATO Postdoctoral Fellowships in Science
11/9/84	ED: Training Personnel for the Education of the Handicapped
11/15/84	ACE: American Council on Education Fellowships
11/15/84	NSF: Visiting Professorships for Women
11/29/84	ED: Fund for the Improvement of Postsecondary Education
12/7/84	OSERS: Secondary Education and Transitional Services for Handicapped Youth
12/31/84	Kellogg: Kellogg Foundation's National Fellowships
Early January	ED: Mina Shaughnessy Scholars
1/15/85	NSF: Research Opportunities for Women
2/1/85	DCCHC: The Meaning of Work; Humanities and

3/1/85	Women; Humanities and Urban Life; Humanities in the Schools
3/1/85	NCHSR: Health Care Technology Research
3/1/85	NIDA: Marijuana Research
3/1/85	NIA: Older People and Social Institutions
3/1/85	NIOSH: Research and Demonstration Grants
3/1/85	NIMH: Research on Stress Reactivity in Adolescence

No Specific Deadline	NSF: Intergovernmental Program
----------------------	--------------------------------

Grants for women

The National Science Foundation (NSF) has established a new program called Research Opportunities for Women to support research grants for women who have not previously been principal investigators or who are re-entering research careers.

The program will complement the Visiting Professorships for Women program. It is expected that the average funding level will be approximately \$60,000 to \$70,000.

Applications are now available and can be obtained by calling the Division of Research Initiation and Improvement, NSF, at 357-7734. The deadline is Jan. 15.

Gallaudet College is an equal opportunity employer-education institution. Programs and services offered by Gallaudet College receive substantial financial support from the Department of Education.

Cornett retires but still works on autocure project

continued from page 1

Cornett focused on creating a way to visually represent spoken language. "I developed cued speech the first year I was here," he said. "When I saw it was working with kids, I thought, 'Is there something better?' I thought about a device that would give a deaf person speech automatically from a voice so he or she wouldn't need a person to cue." (Cued speech is a method of communication in which eight configurations and four positions of one hand are used to supplement the visible manifestations of natural speech.)

In 1974 Cornett received a grant from the National Institute of Health to do a feasibility study on the autocuer. The following year he became director of Cued Speech Programs at Gallaudet. He pointed out that by 1975 cued speech was being used by about 100 places across the country. Now cued speech is being used in about 350 places in the United States and is in 41 languages. "For example, in France about 800 people use cued speech; in England, 2,000; in Belgium about 700; and in Switzerland about 400-500 people use it," he noted. IBM Scientific Center in France has been working since 1978 on developing the autocuer for the French language.

Even though Cornett has retired, he is available to answer questions, give advice and handle referrals from the staff of the Office of Cued Speech Programs. William McFarland has assumed the responsibilities of acting director of the cued speech office in addition to his duties as chairman of the Department of Audiology. McFarland said that the College is searching for a permanent director who it hopes will be on board this summer.

McFarland said that Cornett and personnel from the Office of Cued Speech Programs will continue to give lectures about cued speech to classes on campus and will continue to offer graduate courses in cued speech.

Faculty meeting

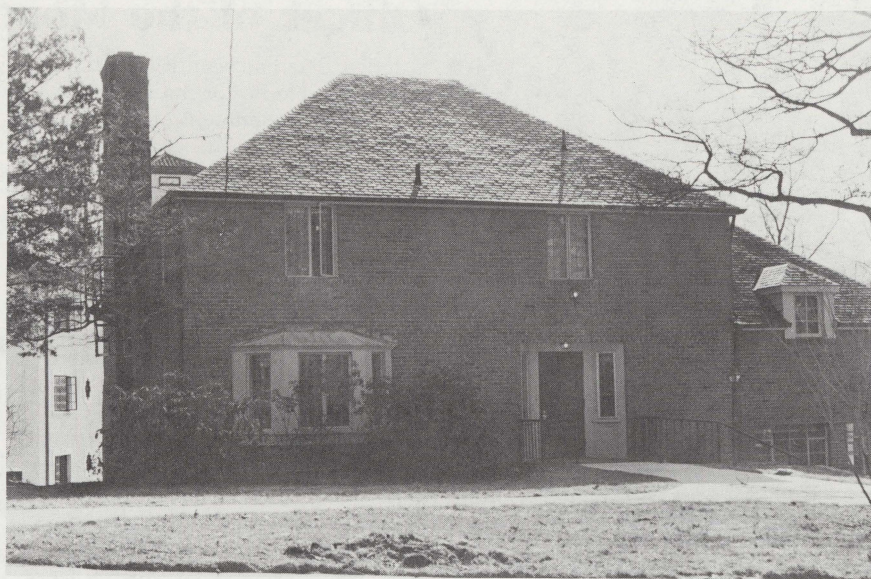

continued from page 1

was her responsibility to make certain the Board of Trustees understands that the quality assessment recommendations would be made by a select committee rather than an elected body.

Carol LaSasso of the Department of Education will serve as the liaison for Committee S and the quality assessment committee which will work on the report for the Board of Trustees.

In other votes, the faculty accepted Committee B's recommendation of a new course entitled Psychology Applied to the Man-Made Environment and a proposal by Committee S to elect a five-member presidential advisory panel. Ingold will chair that panel. The remaining four members will be elected for two-year terms and will act as individuals on the panel and not representatives of the faculty. The faculty asked Committee D to create a slate of candidates for the November faculty meeting.

The faculty will also consider at next month's meeting two amendments to the bylaws which were formally introduced at last Monday's meeting.

The Irving Fusfeld Hall is one of four buildings to be dedicated at the Northwest Campus during Homecoming weekend. The Laura Searing, Fred Schreiber and Byron Burnes halls will also be dedicated Oct. 27 at 10 a.m. The campus community is invited to attend the dedication ceremony.

Homecoming activities set Oct. 26-27

The Gallaudet-Appalachian State football game, the dedication of four buildings at the Northwest Campus and a 1930s ball are among the Homecoming activities planned for this weekend.

This year will mark the fiftieth year Gallaudet has celebrated Homecoming, and activities will kick-off with a pep rally Friday, Oct. 26. The rally, which is free, will begin at 7 p.m. at the Field House.

A pre-game bash and pre-game celebration will follow the pep rally. The pre-game celebration will begin at 9 p.m. at "Ole Jim" and the pre-game bash will begin at 9:30 p.m. in the multipurpose room of Ely Center. Admission to the celebration at "Ole Jim" is free. A cash bar will be open, snacks served and music played during the celebration. The bash at Ely Center will cost \$3 per person and will feature dancing and entertainment.

Saturday's events will begin with a walking tour of the Northwest Campus at 9 a.m. The tour will begin in the

lobby of the Main Building, where persons are asked to meet. The dedication of the Laura Searing, Irving Fusfeld, Fred Schreiber and Byron Burnes halls will be held at 10 a.m. at the campus.

The football game is scheduled for 1 p.m. at Hotchkiss Field at the main campus and a post-game bash is slated for 4 p.m. at "Ole Jim." A donation of \$1 will be taken to help cover the cost of food to be served at the bash. A cash bar will be open and music provided.

A 1930s ball will be held at the Gallaudet College Cafeteria from 9 p.m. to 2 a.m. The admission charge is \$10 per person and Andy Lange, a student recruiter and 1983 graduate of Gallaudet, will serve as the master of ceremonies.

Because of Homecoming, the College bookstore will offer discounts on special items Thursday, Oct. 25 through Saturday, Oct. 27. The bookstore will be open Saturday, Oct. 27 from 10 a.m. to 2 p.m.

Monograph published from joint study

A year-long cooperative study conducted by MSSD and the National Technical Institute for the deaf (NTID) has culminated in the publication of a monograph which focuses on ways to better prepare deaf high school students in math and science for technical postsecondary education.

Fred Bone and Jim Osborne from MSSD's science department, Bob Fisher and Jay Innes from the math department and Nancy Fones, assistant principal for curriculum, represented MSSD on the team responsible for the project.

The study identified the following skills as needing improvement: problem solving; determining reasonableness of results; estimation; basic math skills; graphing; measurement; technical reading, writing and vocabulary skills; study skills; and awareness of technology.

The monograph, "Promoting a Clear Path to Technical Education," expands on each of those skills and recommends strategies and activities to be implemented at the high school level.

"Hopefully, classroom teachers, occupied as they are with the realities of day-to-day teaching and discipline, will welcome this kind of study and will find it useful in restructuring and

upgrading their mathematics and science curriculum and methodology," noted Gallaudet President Jerry C. Lee and William Castle, vice president for the Rochester Institute of Technology/NTID, in a joint statement.

"Deaf children need be no more disenfranchised than others from excellence in education. To this end, we must prepare deaf students for the world as it is and as it will be," the statement concluded.

MSSD will be using the monograph as a guideline for regular curriculum revision and review and will share the study results with other programs for hearing impaired high school students.

Persons interested in receiving a copy of the monograph should contact Nancy Fones at MSSD.

Holiday hosts sought

Because many international students will be staying on campus during the Thanksgiving holiday, persons are needed to host the students for Thanksgiving dinner.

Anyone interested in sharing Thanksgiving with an international student should contact Chanaz McRae, international student adviser, at Ely Center or call x5638 (voice and TDD).

Announcements

- A number of lost items have been turned in to the Department of Safety and Security.

A 1979 high school class ring, lost last year, is among the items being held at the Department of Safety and Security at Chapel Hall. Other items, which were turned in since June, include an insignia ring, a pocket watch, two men's watches, two pairs of prescription glasses, a pair of sunglasses, two bicycles and one hearing aid.

For more information, contact investigator Billy Holman weekdays from 8 a.m. to 2 p.m.

- The campus community is invited to KDES Monday, Tuesday and Wednesday, Oct. 29-31 for the Middle School eurythmics class performance of "Halloween Fun," an original play.

The show will begin at 1:25 Monday and Tuesday afternoons and at 10:50 Wednesday morning. The students will give their own rendition of the film "Ghostbusters" each day before the play.

Eurythmics instructor Pauline Spanbauer is directing the performance. Ocie Curry, Rogers DaConceicao, Marty Pierce, Melanie Pollard, Marcus Shelton, James Tabron and Crystal Washington are the student actors.

- The Gallaudet College Theatre Arts Department will present Tennessee Williams' play, "The Rose Tattoo" Nov. 9, 10, 16 and 17 at Elstad Auditorium. The performances will be directed by Gil Eastman, a professor in the Theatre Arts Department, and will begin each evening at 8 p.m.

Gallaudet students with identification will be admitted free and other students—including sign language students and children—will be charged \$2.50. All other persons will be charged \$4.50 for admission.

For reservations, call x5605 (voice) or x5608 (TDD).

- Deaf Dimensions, a hearing and deaf dance company, will present a musical revue entitled "Treasures" Oct. 27 and 28 at the Jewish Community Center of Greater Washington in Rockville, MD.

The performance will feature dance numbers dating from the 1920s to the present. An 8 p.m. performance will be given Oct. 27 and a 2 and 8 p.m. performance Oct. 28. Admission is \$3.50 for members of the community center and \$5 for non-members. The center is located at 6125 Montrose Road in Rockville.

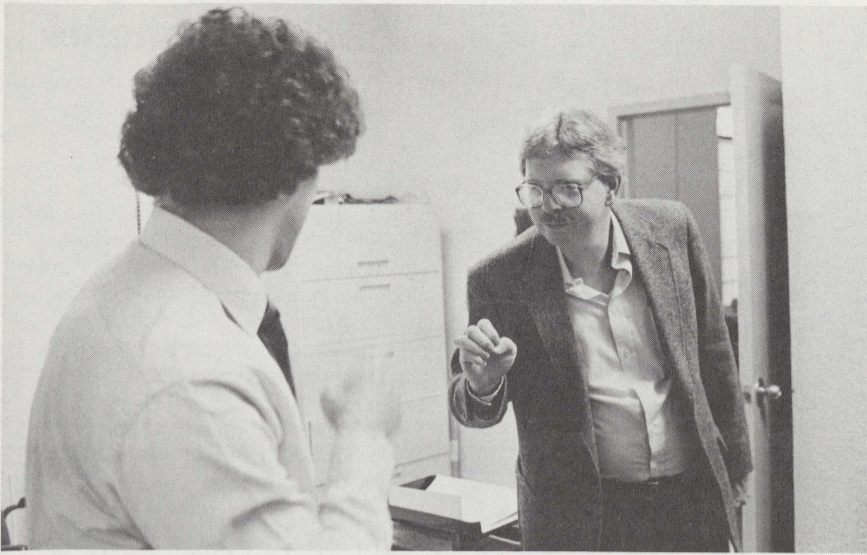

For more information, call 881-0100 (voice) or 881-0012 (TDD).

- Gallaudet College is co-sponsoring a Graduate and Professional School Fair at George Washington University Oct. 23 and 24. Gallaudet is a co-sponsor with other area colleges and universities for the event which will give persons an opportunity to talk to more than 150 university representatives about graduate programs.

Shuttle bus service from Gallaudet will be provided both days and interpreters will be available.

The fair will be held both days on the third floor of Marvin Center at the George Washington University campus at 21st and H Streets, NW.

For more information or to sign up for interpreter and/or transportation service, call the Counseling and Placement Center at x5638.

Mike Moore is an associate professor in the Office of the Dean at the School of Preparatory Studies.

World Games committee releases names of alumni, employees on staff

The United States Committee for the World Games for the Deaf has released the names of alumni and members of Gallaudet's faculty and staff selected to serve on the staff of the United States' team during the XV World Games for the Deaf scheduled for July 10-20, 1985 in Los Angeles, CA. The listing of alumni and faculty and staff follows.

Gallaudet alumni

Simpson, Bill—chairman
Ammons, Donald—vice chairman
Sutcliffe, Ronald—treasurer

Public Relations:
Schoenberg, Rick—photographer

Basketball:
Anderson, Hubert—head coach

Cycling:
Skedsmo, Bobby—head coach

Track/Field:
Berg, Thomas—coordinator
Corbett, Robert—assistant coach, field events
Koetz, James—assistant coach, long distance
Logan, Janice—manager
Ramborger, Bill—assistant coach, jumping events
Seeger, Ruth—assistant coach, sprinters
Wilding, Jerry—assistant coach, long distance

Volleyball:
Warshaw, Farley—assistant coach (Men)
Marsh, Charles—assistant coach (Women)

Gallaudet faculty/staff

Ammons, Donald (Romance Languages)—vice chairman
Sutcliffe, Ronald (Business Affairs)—treasurer
Willigan, Marty (Physical Plant)—assistant to team director
Cinelli, Patricia (Alumni/Public Relations)—assistant in public relations
Baldrige, Kitty (Physical Education)—basketball head coach
Minter, Marty (Physical Education)—soccer head coach
Berg, Thomas (Physical Education)—track/field coordinator
Warshaw, Farley (Student Affairs)—volleyball assistant coach
Worthington, Peg (MSSD-Physical Education)—volleyball coordinator/manager
Marchitelli, Anita (Physical Education)—net sports coordinator

The listing of team members for the United States' World Games team which appeared in last week's *On the Green* did not include players selected for the badminton, table tennis and shooting teams because coaches had not yet selected team members.

Soccer team defeats Valley Forge

The soccer team picked up another victory last week in defeating Valley Forge 3-0, improving its overall record to 7-2. The Bison booters have registered four shut-outs so far this season and have outscored their opponents 37 to 9.

The soccer team will play two home games this week. On Wednesday, Oct. 24, the team will take on Allegheny at 3 p.m. The team will then conclude the season against NTID on Homecoming Day, Oct. 27. That game will get underway at 3 p.m., just as the football game draws to a close.

The women's volleyball team captured the Gallaudet Invitational Tourney held Oct. 13. The Bisonettes defeated St. Mary's, UDC, Marymount and Notre Dame. The volleyball team is now sporting an 18-4 record.

The volleyball team will also host a tournament in the Field House during Homecoming weekend. The games are

scheduled for Friday and Saturday, Oct. 26 and 27.

The football team lost its third game of the season to the club football team from the University of North Carolina-Wilmington by a score of 23-20. Game statistics were not available as *On the Green* went to press. The team will wind up its football season this Saturday in its Homecoming game against the Appalachian State Club team. Kick-off time is 1 p.m.

The field hockey team picked up a victory last week in defeating Marymount 4-0 and played Lancaster Bible to a scoreless tie. The field hockey team now has a 2-3-1 record.

Happy Hour notice

Happy Hour is held each Thursday and Friday from 4 to 7 p.m. at "Ole Jim." Beer, wine, mixed drinks and snacks are served during Happy Hour.

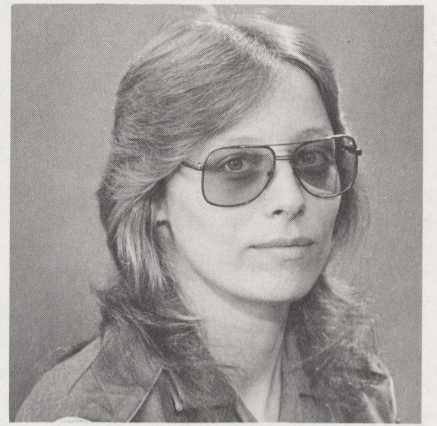

Officer of the Month: Judith Slisz

Judith Slisz has been selected the Officer of the Month for the month of July by the Department of Safety and Security. She was chosen by a review board of campus police supervisors and other officers from among three finalists in an interdepartmental performance competition.

Slisz joined the Department of Safety and Security in May of 1979. Prior to joining the department, she served in the United States Army as a Military Police Officer and worked for a private industrial security firm.

During her five years at Gallaudet, she has received more than 17 letters of commendation and appreciation. She was instrumental in establishing a safety patrol program at KDES which won second place in the Special Units Division sponsored by the Washington, D.C. Police Community Relations Division.

Her accomplishments at the Department of Safety and Security include the arrest and confession of an individual responsible for malicious activation of a fire box on Florida Avenue, disarming and arresting a person brandishing a large butcher's knife and successfully investigating a burglary ring in which four College grandmaster keys and \$2,500 worth of College equipment

Judith Slisz

were recovered and 10 investigations closed.

The Officer of the Month program was established to recognize outstanding members of the Department of Safety and Security, according to Floyd Holt, the department's director. The program is based on a 20-category (38-point) system in which officers monitor their own progress.

A pre-established number of points can be scored for a wide range of work performances ranging from letters of commendation to perfect attendance, to criminal arrests to most safety defects and deficiencies uncovered.

Jobs Available

Some of the advertised staff positions may already be filled. For updated information, call the JOB RECORDING in the Personnel Office, x5514 or x5520 TDD.
